PROFESSIONAL SUMMARY

Results-driven MERN Stack Developer with strong expertise in building scalable, responsive, and high-performance web applications using MongoDB, Express.js, React.js, and Node.js. Experienced in developing end-to-end solutions, including a Furniture E-Commerce Platform and an Online Bookstore, featuring authentication, product management, shopping cart functionality, order processing, and RESTful API integration. Proficient in JavaScript, TypeScript, Next.js, Redux Toolkit, Tailwind CSS, Git, and database design. Adept at writing clean, maintainable code, optimizing application performance, and delivering user-centric digital experiences. Committed to continuous learning and leveraging modern technologies to create innovative and efficient software solutions.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, RESTful Api Design, JWT Authentication,

Database: MongoDB, Mongoose

Tools: Git, GitHub, VS Code, Postman

Deployment: Vercel, Render

PROJECTS

Furniture E-Commerce Platform | MERN Stack (MongoDB, Express.js, React.js, Node.js)

- Developed a full-stack furniture e-commerce application with a modern, responsive user interface and seamless user experience.
- Implemented secure user authentication and authorization using JWT-based authentication.
- Built product catalog management with filtering, searching, sorting, and category-based navigation.
- Designed and integrated RESTful APIs for product, user, cart, wishlist, and order management.
- Developed shopping cart and checkout functionalities with dynamic price calculations and order processing.
- Utilized MongoDB and Mongoose for efficient data modeling and database management.

Technologies: MongoDB, Express.js, React.js, Node.js, Redux Toolkit, Tailwind CSS, REST APIs, Git, GitHub

Online Bookstore | MERN Stack (MongoDB, Express.js, React.js, Node.js)

- Developed a full-stack online bookstore application using the MERN Stack architecture.
- Implemented CRUD (Create, Read, Update, Delete) operations for book management.
- Designed and integrated RESTful APIs for efficient communication between the frontend and backend.
- Built responsive user interfaces using React.js for seamless book browsing and management.
- Utilized MongoDB and Mongoose for database design, data storage, and retrieval.
- Applied component-based development practices to create reusable and maintainable code.
- Used Git and GitHub for version control and project management.

Technologies: MongoDB, Express.js, React.js, Node.js, JavaScript, REST APIs, Git, GitHub

EDUCATIONS

Bachelor of Computer Applications (BCA)
Kalinga University, Naya Raipur, Chhattisgarh
Graduation Year: 2025

CERTIFICATIONS

MERN Stack Development Certification
Mindrisers Institute of Technology Putalisadak
Kathmandu, Nepal
2026
